

# CERTIFICATE OF COMPLETION

THIS CERTIFIES THAT

Elisa Westerhof

has successfully completed a 10-week virtual medical research internship between December 2023 and February 2024. The student has carried out their individual research project on cancer and genetics, under the supervision of a UCL-based researcher. The student has demonstrated excellent writing and communication skills by presenting their findings through an academic poster and patient leaflet. The student has successfully learned how to identify and critically appraise peer-reviewed scientific information using PubMed and developed a deep understanding of key concepts in the field of Personalised Medicine.
